About AACO ENTERPRISES

Aaco Enterprises was established in the year 2021 in Tamil Nadu, India. We are an exporter and importer of whole pulses, Indian rice, and a lot more.

We are B2B traders, highly specialized in rice, areca plates and dal. We maintain stocks and distribute them to different institutional parties like manufacturers, exporters, etc. We provide them in bulk quantities. We follow a standard packing process to ensure that the quality and authentic taste of commodities remains intact.

Why Choose Us?

Our Company has developed a business strategy to switch over exports/imports from one commodity to another with changes in demand inconsistency in pricing for any commodity during any season. This policy adopted by the management ensures that the Company does not pass through a lean period during the year.

We believe that our market position has been achieved by adherence to the vision of our Promoter and senior management and their experience. We value our customers and aim to exceed customer expectations by fulfilling valuable commitments.

Our customer-oriented approach and cordial relations with them are the key strengths of our company. We aim to provide cost-effective solutions available while adhering to the quality standards of the services. We strive to establish relationships with clients and collaborate with them to drill down on the best solutions.
