Purpose Band Saw

## About Accurate Engineering <sup>TM</sup>

ACCURATE ENGINEERING :-METAL CUTTING SOLUTIONS We, ACCURATE ENGINEERING are one of the leading manufacturers and suppliers of Band saw Machines and Band Saw Blades in India. In addition to this, we are engaged in offering Maintenance services of Band saw Machines. We, ACCURATE ENGINEERING -started our operation in the year 2003, are among the prominent manufacturers and suppliers of a qualitative array of Band-saw Machines and Blades. The product range comprises Band Saw Machines, Fully Automatic Cutting Machines (Horizontal & Vertical versions) and Semi-Automatic Machines . Their excellent cutting efficiency, less power consumption, sturdy construction, low maintenance cost and longer serving life, make these industrial cutting machines highly demanded in various industries for different cutting purposes. We also offer best quality Re-conditioning services of Metal Cutting Band Saw Machines and Double Column Band Saw Machines. Rendered by experts, these re-conditioning services are known for their execution within the assured time frame. In addition to this, these re-conditioning services are rendered by us at cost effective prices. Working under the visionary guidance of our Founder Mr.TK PRAKASH who is having more than 30 years in experience in manufacturing of Band saw Machines, our technical team makes sure that the entire products range meets the demands of Mechanical and Engineering Industry. His in-depth knowledge and experience in the industry helps us in meeting the machinery demands of our clients spread nationwide.

### Other Info:

News and Events : Successfully Installing 5 machines for Mata steel and 4 Machines for Nithin forging and 4 Machines in Sundaram Clayton Ltd[TVS]. We have successfully installed Heavy duty High Speed Double Column Semi Automatic Band saw Machine ACCU 1000 SAB For Goel Steels. Recently we have successfully installing Horizontal band saw machine for HAL Koraput and Vertical Band saw 900 VB for BHEL Trichy.

Unique Features : 1.Machine Bed 2.Slide Arm Castings 3.Wheels 4.Sensor 5.Chrome Plated Rods 6.Blade tension 7.Gear Box 8.Electrical control Panel 9.Power PACK. 10.Main Vice 11.Shuttle Vice 12.Blade Tension Box

Productivity : Our Ranges from 260 mm to 1500 mm Cutting Capacity for all models. IE,Fully Automatic,Semi Automatic and Special Purpose Band saw machines and Vertical band saw machine

Other Features : 1. Automatic Height Control 2. Brush for Chip Removal 3. Band Tension 4. Complete coolant System 5. Complete Hydraulic System

Our Clientele : At Accurate Engineering, we always endeavor to provide our clients with optimum quality special purpose band saw machines. Moreover we also offer band saw blades and have the facility to provide AMC and reconditioning services for these machines. Understanding the fact that the requirements of every client are bound to be different, we offer our clients with the facility of customizing the technical specifications, as per the requirements of our clients. Further, we offer easy payment modes like money transfer through bank, cash, demand draft and e-payment for easy transaction by our clients. Moreover, our ethical business practices have helped us in achieving a strong customer base across the nation. Some of our clients are: 1. Sundaram Clayton Ltd [TVS Group of companies] 2. CVM Precision Products Pvt. Ltd 3. Saint Gobain Research India 4. Nithin Forgings Pvt Ltd 5. Hindustan Aeronautics Limited 6. BHEL 7. Bundy

Our Product : We are engaged in manufacturing a wide range of Double Column Band saws and Vertical Band saw machines. These are manufactured using quality raw material like mild steel, casting iron and alloy steel to ensure high operational fluency and longer service life. We offer our products under the AE range and meet the demands of Mechanical and Engineering industry across the nation. 1. High Speed Double Column Fully Automatic Band Saw Machine 2. High Speed Double Column Semi Automatic Band Saw Machine 3. High Speed Double Column Special Purpose Band Saw Machine 4. Manual Band saw Machine 5. Vertical Band saw Machine 6. BI -Metal Band saw blades.

Our Strength : We have carved a niche for ourselves in this domain owing to the following factors: Long lasting special purpose band saw machines Ergonomically designed products Provision of perfect marketing and after sales services for the clients Availability of annual maintenance Provided with the service of ROI (Returns of investment) Customization Competitive Pricing

Standard Features : variable band speeds to optimize cutting rates on different material The inserts have carbide facing high tolerance cutting Fixed and strong construction so as to reduce vibration Rubber bellows for column protection. Ergonomically designed electrical control panel Chain drive with gearbox driven rotating wire brush Grounded and hard chrome plated double columns Infinitely variable feed control valve for setting the cutting rate Automatic height adjustment for saw frame to save idle time In addition, we also offer AMC and reconditioning services for horizontal band saw machines and vertical band saw machine.

## Factsheet

### Basic Information

Nature of Business	: Manufacturer / Exporter / Supplier / Service Provider
Contact Person	: T. K. Prakash
Registered Address	: Plot no.34,35 &36,Kalpaka Gopalan Street Natesan Nagar 2 nd Street, Ragiv Nagar,Ayanambakkam Chennai-95., Tamil Nadu
Total Number of Employees	: Below 20
Year of Establishment	: 2003
Legal Status of Firm	: Individual (Sole proprietorship)
