About ANM Engineering Work

ANM Engineering Work is recognized as an established company from Delhi (India) that is engaged in the manufacture & trade of different kinds of metal products. We are counted among the successful manufacturers and suppliers of products like mild steel trolley, stainless steel trolley, GI chain link fence, and metal scrap. We are also engaged in rendering industrial fabrication services. We manufacture all these products using the finest grade metals in a variety of designs, sizes, and specifications in compliance with the laid norms. Our finely finished and sturdy metal products are demanded across the country. We have created several benchmarks in the domestic markets by serving quality products and services at a reasonable cost.

The foundation stone of ANM Engineering Work was laid by a dynamic and enterprising professional i.e. Mr. Amit Kumar (Founder) back in the year 2002. He possesses vast experience in the domain of metal products manufacturing. Moreover, the process of production is carried out by our talented workforce that consists of skilled and qualified staff members.

Quality Assurance

Quality is our companys forte and we never compromise with that. To ensure that, we have a team of experienced quality auditors, who check the products quality thoroughly on several parameters. They make sure that only the finest quality products are supplied from our end.

Packaging & Warehousing

For safe packing of the products, we make use of quality and durable packaging materials. In addition to this, we have a capacious warehouse wherein we store the entire lot under the safest conditions. We keep our warehouse installed with all required amenities essential for safe storage of the products.
