About Astarn Engineering and Oilfield Supplies Pvt. Ltd.

We, **Astarn Engineering and Oilfield Supplies Pvt. Ltd.** are one of India's prominent manufacturers, exporters, and suppliers of products used in the oil drilling sector. We deal in cementing plugs, casing protectors, well-servicing strippers, mud pump spares, mud swivel spares, plunger valve spares, control equipment spares, oil field rubber products, rubber molded products, etc. We are also known for our welding services, installation services, and manpower supply services.

We are located in one of the finest places in Kolkata (West Bengal) and supply our products to different cities in India, UAE, Kuwait, Oman, Germany, Saudi Arabia, Qatar, Russia, Finland, Poland, Spain, Belgium, Norway, Bahrain, Iraq, Denmark, Canada, Indonesia, Brazil, Nigeria, Egypt, Turkey, United Kingdom, Italy, etc. With our great industry experience, we are providing our clients with unmatched quality in our products and high reliability in our services.

Our Team:

We are endowed with a team of professionals who are well informed of the quality commitment of the company and work for the same. Each and every team member has thorough knowledge and understanding of this particular field. Our team consists of talented engineers, manufacturing personnel, quality control specialists, logistic & transportation personnel, supervisors, managers, and other allied workers in our company.

Quality Assurance:

All of our products are designed and created by skilled professionals using quality-approved materials and advanced technology. All strict quality-control techniques are used to check the sourced raw materials and manufactured products. Our experienced quality control experts keep a close watch on the whole process of production and service execution. They make sure that all of our products must meet the required standards.

Our Facilities:

We are equipped with a sound infrastructure that includes all the facilities needed for improved production.

Our infrastructure includes a manufacturing facility, R & D unit, quality control unit, logistic department, etc. All of these facilities are armed with the necessary machines, tools, and advanced technology to accomplish all the work procedures properly.

Client Satisfaction:

Our clients across the world are highly impressed by the quality that we offer to them at a reasonable price and the unique approach that we have adopted to conduct our business deals. We, at **Astarn Engineering and Oilfield Supplies Pvt. Ltd.**, look forward to not only offering superior quality products but also building strong bonds with our customers in order to ensure their continued satisfaction.
