About Caroline Industry

Caroline Industry

Company Profile

At Caroline Industry, we strive to be recognised among the experienced electrical/civil/Design professionals based in Jalandhar, Punjab, India. We are having a strong market stand in Punjab and a reach extending across PAN India. Our team of passionate architects, designers, and engineers is devoted to crafting modern, useful, and aesthetically pleasing buildings. We know that outstanding architecture has the power to change not just spaces but lives.

We have widespread experience in working with and managing other expert companies such as environmental scientists, earthing and protection engineers, and architects. The team is ready to give a comprehensive substation package.

The widespread experience of our layout team implies that they play an important role in project development at the pre-planning stage with the growth and provision of design drawings necessary for planning applications.

We take care of the needs of people.

We look into the needs of the people and understand that there is a life outside the job and share a great sense of purpose. Our team is passionate about what they do, considers what Ergo is about, and has high levels of job pleasure. It turns our people motivated to do a good job, to go the additional mile. They are stimulated, and this leads to great results for our team, our customers, and our business.

The company is professionally managed by Mr. Deepak Kumar, founder of the company. He has years of experience in the industry.
