## About Crown Pipes

Incepted in the year 2014, we are one of the largest and reputed manufacturers of Double wall corrugated pipes in the country. We manufacture a wide range of corrugated pipes for Cable Protection and Waste Water Management largely used by infrastructural contractors, Road contractors and civil engineering companies that can be extensively applied according to the specific requirement of our clients. Our pipes comes in numerous types and promptly delivered all across the world.

Under the mentorship of our Founder, Mr. Rushikesh Gandhi, we are steadily expanding our expertise by rigorously engaging with our clients with utmost integrity. His positive attitude, customer centric approach and in depth knowledge of the market allows us to bring the most value added products and services to all the clients worldwide.

Situated in Pune (Maharashtra, India), we at Crown Pipes always strive to deliver more than we are committed to deliver. This is the reason why we are most preferred manufacturers of DWC pipes among the contractors. The motto of our entire business process is customer satisfaction and hence we are always looking for improvements in quality standards. Thus, we are committed to enhance our production capabilities by heavily investing on advanced equipment that assist us in meeting all the tailor-made needs in a cost effective manner.

Beside this, our reputation stand firm as we follow following tests for quality assurance:

Density Test

Mass Melt Flow Rate Test

Ring Flexibility

Ring Stiffness

Impact Strength

Water Tightness

Thermal Stability

Creep Ratio (Oxidation Induction Test)

## **Our Vision**

We see a vision where large number of contractors use our product that will add value to their works and contribute in social development.

## **Our mission**

To provide affordable and durable piping solutions for Electrical and Sewerage, Drainage management and infrastructural projects for various purposes.

## **Policy**

Crown Pipes is committed to deliver quality products to the customers that will meet or exceed customer expectations. We will pursue quality programs that will enable our employees to do their job right every time.

## **Objective**

- To become most preferred manufacturer among the customers.
- To develop innovative products.
- To keep the manufacturing cost at its lowest.
- To be a market leader in future.
