HANDMAKERS PVT LTD

About HANDMAKERS PVT LTD

Handmakers Pvt Ltd was established in the year 2019 in Rajasthan, India. We are retailer of jute bags, canvas bags and a lot more.

Manufacturer of premium jute bags, which are great for advertising and everyday usage. All jute goods are made using laminated jute, a high-grade fabric that guarantees great quality. Our skilled professionals oversee the manufacturing processes and make sure that every step adheres to industry standards.

Why Choose Us?

The company produces exceptional quality jute goods made to meet a variety of demands without sacrificing style, all while pursuing the goals of preserving the environment, nature, and humanity.

In this day and age of computers and the Internet, use and toss culture, pollution from polythene is the norm. You utilize something and then discard it after usage. Pollution from polythene has adversely affected everyone's way of life and surroundings, which has further contributed to the depletion of the ecosystem. One of the affordable, environmentally beneficial alternatives to using plastic bags is using jute bags.

Jute bags are naturally occurring alternatives that are environmentally friendly and have other benefits. The harmful consequences of synthetic materials are so severe that numerous western nations have outlawed their use in food goods, in contrast to the total biodegradability of jute bags. Jute is a product of agriculture, but synthetic bags are created from polyester granules, a risky by-product of naphtha.
