About Hardik International

Hardik Enterprise is the most reliable and distinguished name in offering chemical compounds. Situated in Nashik Maharashtra since 2012, we are the most reliable exporter of chemical compounds. Our products are used as fillers in the manufacture of adhesives, insulation material, putty, paint, and rubber. We offer wood powder, soda felspar, mica flakes, powder, blocks, calcium chloride, biomass briquettes etc. In a very short period, Hardik Enterprise has been able to receive acknowledgement and bundles of gratitude. Each of our products includes remarkable features such as chemical inertness, durability, strength, damage-proof and many more. All our products are made with the latest technology in highly equipped factories. Our highly professional experts and labourers work relentlessly with a positive attitude. We conduct an extensive investigation on products and acquire the most innovative method which helps us to deliver excellent products. The quality of our products made us famous and a highly appreciated brand. Our products are popular among clients because of their class-apart quality, and praise-worthy functionalities. With our advanced testing laboratory and factories, we manufacture our products with the highest precision. With strict evaluating procedures like quality verification, material quality inspection, proportion check, performance test & routine tests. By this, we ensure the products can fulfil every need of clients. With a well-maintained supplying procedure, we efficiently deliver our products to make our clients satisfied. Our swift delivery and a customer-centric approach help us to stay ahead. The products we deliver can easily make any production highly effective. Contact us to know more information about our products and order our products to get exciting offers.
