bio fertilisers

About Hi-Tech Agro

We, the importer and distributor of biological fertilizers near Kolhapur city. We are backed by a sound infrastructure and a well trained team of expert that makes us possible to deliver quality product to our farmers. The combined effort of our team enables us to provide our product in accordance with international quality standards. In the early days we offer R&D services as well as consultancy to companies concerned with bioactive plants. The range of our R&D activities includes the authentication, sourcing, domestication, pilot cultivation, and commercial large scales production of plant materials. As we are engaged with farmers personally we have witnessed a shift of mind set of many farmers and growers towards taking greater care of their soil biology in the knowledge that it will also contribute to their improved profitability. Farmers are demanding organic fertilizer that really perform, ". "Organic farming is a sustainable and environmentally friendly approach to agriculture that emphasizes the use of natural processes and techniques to cultivate crops and raise livestock. The primary goal of organic farming is to produce food while minimizing the negative impact on the environment, promoting biodiversity, and enhancing soil health. Organic farming has gained popularity in recent years due to concerns about the environmental and health impacts of conventional agriculture. Organic products are often perceived as being healthier and more environmentally friendly, although research on these claims continues. However, it's essential to recognize that organic farming can have its challenges, including potentially lower yields and higher labor costs compared to conventional farming methods. Nonetheless, many consumers and farmers believe that the benefits of organic farming outweigh these challenges, and it plays a crucial role in promoting sustainable agriculture." we found that our liquid form Medisol Oceanic with its balanced formulation it gives high yield, high quality and improves soil structure. Therefore we decided to provide liquid Medisol oceanic Nirosol and also bio pesticides , bio insecticide, bio fungicide to Indian farmers We have distributing across all over India, our highly result oriented bio fertilizer in solid granulated formulation i.e. BIO-F Bio -F is High quality organic manure in granular form with various type of oil cake, useful bacterial cultured material, organic carbon enriched material, soli cake, fish protien in granulated preparation with Rapid Thermophilic Decompose Technology Owing to our expertise in this sphere, we are involved in providing Plant Growth Promoter. This product is processed at our high-tech manufacturing department keeping in mind the set industry parameters. Offered product is biological supplements result in increased growth rates, vigor & greater health of the plants. Our customers can avail this product from us at industry leading cost. *?Bio-F Helps to enhance healthy root development* *?Bio-F Enhances the microbial activity thus helps to improve natural fertility of soil* *?Bio-F Promotes vegetative growth and helps to produce more number of shoots.* *?Bio-F Helps to improve the availability of nutrients from the soil Helps to stimulate the decomposition of the plants* *?Bio-F improve organic matter, soil texture & maintain CN ratio of the soil
