About INDONET PLASTIC INDUSTRIES

We, **Indonet Plastic Industries**, are recognized and reliable organization engaged in **manufacturing, importing and supplying** of various kinds of plastic netting and plastic films like extruded plastic nets, shade nets, polyethylene non woven fabrics, reinforcement mesh, turf reinforcement, turf reinforcement mesh, turf reinforcement net and packaging nets. Our products are high in demand among our clients owing to their quality, durability and environmental friendly attributes. We have become the primary choice of our clients for procuring our product range according to their needs.

With sound infrastructure, we are able to manufacture our range in compliance with the industry & client specific requirements. We are assisted by our team of quality controllers which ensures that the manufacturing and packaging unit is constantly upgraded to assure our clients of A-grade quality. Our ethical business practices, client oriented approach, unique products, and dedicated workforce, have helped us to achieve a remarkable position in the industry. Our advanced distribution network allows us to deliver the range of products on time with safety.

We owe the success of our organization to our mentor Mr. Hitendra Panchal, who has with him immense domain expertise and in depth knowledge. Under his able guideline, we have witnessed tremendous success and have been capable of garnering a niche for ourselves in the domain.

Vision

To become a best in industry by providing customised netting solutions, building partnership, creating a great work environment through innovation in products & prompt services leads to the best customer satisfaction in the market we serve

We have a sound infrastructure unit which is the crucial part in the efficient functioning of our organization. Our infrastructure is divided into manufacturing, research & development and quality control departments. The use of sophisticated technology helps us in manufacturing our range of products in line with international quality standards. With efficient & advanced resources, computer aided tools, machines and equipment, we are capable of meeting the bulk requirements of our clients.

We are backed by a reliable team of skilled and dedicated professionals, which forms an integral part of our organization. Selected on the basis of skills and knowledge, our professionals are well versed in this domain. Further, they are adept in handling the latest machines and manufacturing processes. Our team comprises Engineers, Technicians, Quality controllers, Workers, Sales and marketing executives. These professionals work closely with our clients to understand their requirements and accordingly develop products.
