About Laxmi Machine Tools

Laxmi Machine Tools, established in 2011 and located in Ajmer, Rajasthan, stands as a reputable and trusted name in the manufacturing and supply of premium-quality flour milling equipment. With a decade of experience in the industry, we are dedicated to providing our customers with efficient and dependable solutions for their flour milling needs.

At the heart of our product range are our meticulously crafted Janta Atta Chakki and Bolt Type Atta Chakki machines. These machines are designed to process wheat and other grains into fine, high-quality flour efficiently. They are built with precision engineering to ensure consistent and reliable performance, making them the preferred choice for many flour mill owners and operators.

Laxmi Machine Tools takes great pride in the production of Janta Emery Stones and Danis Emery Stones, which are essential components of our milling machines. These emery stones are made from carefully selected materials and undergo rigorous quality control to guarantee optimal grinding performance and longevity.

Our commitment to excellence extends beyond product quality. We prioritize customer satisfaction and aim to provide timely deliveries and competitive pricing to meet the diverse needs of our clients.

As we continue to grow and innovate, Laxmi Machine Tools remains dedicated to serving the flour milling industry with the best-in-class machinery and components. We understand the importance of flour milling in providing a staple food source for communities, and our mission is to empower millers with the tools they need to produce the highest quality flour.

With a focus on quality, reliability, and customer-centric values, Laxmi Machine Tools is poised to remain a trusted partner in the flour milling industry for years to come.
