

We MG Elektronik Services are a leading and distinguished Manufacturer, Exporter, Supplier and Trader of quality Amplifier, Fuses, Circuit Breakers & Components, Metal Detector, Printed Circuit Board and Solar Insect Trap.

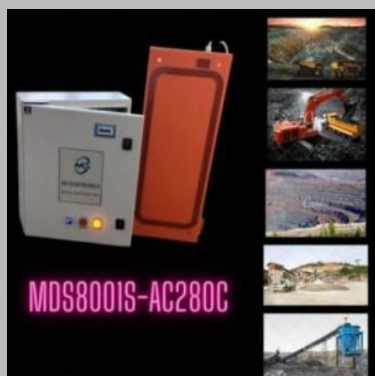

Ferrous Metal Detector

Metal Detector

Industrial Metal Detector

Stone Crusher Metal Detector,

Amplifier(Ntg)

Power Isolator NTG

## About MG Elektronik Services

Established in 2006, MG Elektronik Services, located in Nellore, Andhra Pradesh, stands as a prominent player in the manufacturing, exporting, and trading of cutting-edge metal detection solutions. Specializing in Ferrous Metal Detectors and Industrial Metal Detectors, our company is committed to delivering precision and reliability in the field of electronic detection systems.

Founded and led by Mr. Mahesh G, a visionary in the industry, MG Elektronik Services has steadily grown to become a trusted name in the sector. Mr. G, serving as the Founder and CEO, brings a wealth of experience and technical expertise to the helm, driving the company towards innovation and excellence.

At MG Elektronik Services, our Ferrous Metal Detectors are crafted with meticulous attention to detail, ensuring the detection of ferrous metals with unparalleled accuracy. These detectors find applications across various industries, contributing to quality control and ensuring the safety of products and machinery.

Our Industrial Metal Detectors, designed to meet the diverse needs of industrial processes, set the benchmark for efficiency and reliability. With advanced technology and a robust build, these detectors play a crucial role in enhancing product quality and operational safety.

As a manufacturer, exporter, and trader, we prioritize customer satisfaction by providing tailored solutions that meet the unique requirements of our clients. Whether it's enhancing quality control processes or ensuring compliance with safety standards, MG Elektronik Services is dedicated to delivering high-performance metal detection systems that align with industry best practices.

With a commitment to technological advancement, quality assurance, and customer-centric values, MG Elektronik Services continues to be a driving force in the field of metal detection, contributing to the efficiency and safety of industries worldwide.

## Factsheet

### Basic Information

Nature of Business : Manufacturer / Exporter / Supplier / Trader

Contact Person : Mr. Mahesh G

Registered Address : 204, Bheemavarappadu, Saipeta,, Nellore, Andhra Pradesh

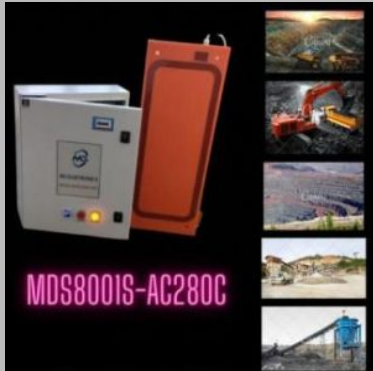

Total Number of Employees : 6 - 20

Year of Establishment : 2006

Legal Status of Firm : Individual (Sole proprietorship)

## Metal Detector

Stone Crusher Metal Detector,

Metal Detector

Industrial Metal Detector

Ferrous Metal Detector
