About Maa Bhagwati Mining and Minerals

Located in the charming Nainital highlands, where the creativity of nature and human workmanship collide, Maa Bhagwati Mining & Minerals is a leading soapstone product manufacturer. We present you with an exceptional variety that goes above and beyond the typical, driven by a passion as deep as the mines from which we extract our treasures.

Our talented craftspeople in the heart of Uttarakhand chisel tales into soapstone, turning unfinished slabs into classic works of art. They give our sculptures life with each stroke of the chisel, making sure that every piece has the spirit of the mountains. The goal is to weave dreams into stone, not merely produce soapstone goods.

Symphony of Sustainability -

We dance with nature at Maa Bhagwati, not simply mine soapstone. Our dedication to sustainability is evident in our eco-friendly procedures, which guarantee that each product is proof of careful workmanship. We work hard to produce the highest quality while having as little impact as possible on the environment, from ethical mining to energy-efficient processing.

From Mines to Your Home -

Set out to travel from the centre of Uttarakhand to the centre of your own house. The carefully chosen soapstone items we provide are a tribute to the area's rich history. Every item, a special fusion of innovation and history, promises to give your room a touch of classic elegance.

Maa Bhagwati Experience -

Maa Bhagwati Mining & Minerals is an experience rather than just a producer and provider. It's about infusing your everyday existence with the spirit of the mountains. Not only are you touching stone when you hold one of our soapstone sculptures, but you're also connecting with centuries of skill, tradition, and Uttarakhand's unadulterated beauty.
