About NBG Transformers

Established in 2005, NBG Transformers is a trusted manufacturer of high-quality Distribution Transformers, delivering reliable and energy-efficient power solutions across India. We specialize in manufacturing ISI Marked Aluminium Wound Distribution Transformers as per the latest IS specifications and PSPCL,UH BVN,DH BVN norms (including RDSS schemes). Our transformers are engineered for superior performance, reduced losses, long service life, and dependable field performance. At NBG Transformers, quality is our top priority. Every unit undergoes strict routine and acceptance testing in line with national standards and customer requirements. Our modern manufacturing setup, experienced technical team, and well-equipped testing facilities enable us to handle bulk orders efficiently while ensuring timely delivery.
