About NRS PLAST MOULDS

NRS Plast Moulds was established in the year 2018 in Gujarat, India. We are a manufacturer and supplier of plastic cap moulds, plastic injection moulds, bottle blow moulds and a lot more.

A company that has consistently achieved outstanding customer satisfaction has done so, due to its innovative ways to manage products, processes and people, coupled with precision and aesthetics, thus perfectly understanding market dynamics and surpassing customer demands.

Creativity

State-of-the-art CAD & CAM terminals bring the innovative ideas imagined both by the client and us into reality.

We always make sure that clients get an ideal volume model for the discussions and corrections of the mould, helping us to come as close as we can to perfection.

All parameters needed to be considered are taken into account. So when the challenge is in making moulds for different applications or stretching longevity for superior cycles, it is the inventiveness of our designing team in taking the first step towards the best product the client desires to manufacture.

Accuracy

With limitless products to mould, mould manufacturing itself becomes a complicated process that needs quality inspection at every stage of manufacturing. The process is built on keeping stock of the best of steel used for mould manufacturing in good tonnage quantity aiding quick response to start the manufacturing process.
