About Omkar Enterprises

Established in the year 2010, at Pune, Maharashtra, **Omkar Enterprises** is an eminent organization actively engaged in Manufacture and Trader of Chain Cleaner Spray, Chain Lubrication Spray and much more. The offered range of products is processed with the mixture of quality approved chemical compounds and sophisticated tools in compliance with set industrial norms. Further, these products are stringently tested on various quality parameters by our quality analysts assuring their long lasting result and durability. Our offered products are used in houses, marine metals and automotive for preventing them from rust. In addition to this, these products are widely demanded by our clients for their water Eco-friendliness, long lasting effectiveness, anti-corrosiveness, quick healing and non-toxic smell. Backed ourselves with sound amenities and talented personnel, we have emerged as one of the leading organizations and have segregated our organization into several divisions. Our firm is further subdivided into different units of functional areas like manufacturing, quality testing, sales & marketing, etc., in order to carry out the entire business operations in an organized manner. Owing to a modernized infrastructure for trouble-free processing & post-production, we are able to process our product assortment in bulk quantities with a fast production rate. We make sure that our installed machines are regularly upgraded to providing clients the finest quality products. Apart from this, we also conduct regular training sessions and seminars regarding quality standards and product development to improve their working capability. Outfitted with a modern infrastructure, we are devotedly engaged in providing our valuable customers the effective range of products. Experts of our team assure our customers that the offered products are in strict adherence to set global principles. We strictly test this product range of various quality parameters in order to deliver its flawless quality at the users' end. Our foremost concern is to satisfy the vast requirements of customers by delivering the best quality products. Due to our current production techniques, we are able to process these products as per clients requirements and offer them in a gradation of packaging options, in order to facilitate safer deliveries. We value the clients urgent needs, therefore, ensuring the delivery of products within the scheduled time - frame. Furthermore, our fair business practices, timely delivery, transparent dealings, client-centric approach, wide distribution network and easy payment modes have enabled us to maintain cordial relations with the customers that are spread all across the nation. Being a highly effective, lean and fast-moving organization, we have with us well-equipped infrastructure facilities consisting of an advanced range of production machinery equipment. This supports us to successfully satisfy our production targets of the different range of products. These facilities help us to process these products as per the set universal norms. We have constructed various divisions in this organization like production, quality control, filtering, warehouse & packaging, etc. to process and deliver the offered products in an organized and hassle-free manner and also within the stipulated time frame. Apart from this, these units are technologically advanced and ensure high production in a flawless way.
