About Proton Energy

About Us: Proton Energy

Established as a Proprietorship firm in **2024**, **Proton Energy** has rapidly emerged as a leading manufacturer and wholesaler of high-quality PVC electrical products. Situated in **Ahmedabad, Gujarat**, we specialize in a comprehensive range of PVC components, including various types of junction boxes (round short, round deep), couplers, pipe elbows, saddles, and tees, available in both 20MM and 25MM specifications.

Under the astute leadership of **Mr. Chirag Patel**, Proton Energy is committed to delivering products that combine durability with performance. We pride ourselves on offering these essential electrical solutions at **reasonable rates** and ensuring **timely delivery** across the nation, fostering a rapidly growing and satisfied clientele.

Why Us?

At Proton Energy, our commitment to quality and customer satisfaction sets us apart.

- **Quality Assurance:** We manufacture and supply a wide range of PVC electrical components known for their durability and reliability.
- **Competitive Pricing:** We offer our high-quality products at reasonable and accessible rates.
- **Timely Delivery:** Our efficient logistics ensure products reach you within the promised timeframe.
- **Expert Leadership:** Guided by Mr. Chirag Patel, we bring dedicated expertise and a customer-centric approach to every interaction.
- **Nationwide Reach:** We serve a rapidly expanding clientele across India, building strong partnerships.

Our Mission

Our mission at Proton Energy is to be the preferred manufacturer and wholesaler of high-quality PVC electrical components in India. We are dedicated to consistently providing reliable, durable, and affordably priced products, ensuring timely delivery, and building lasting relationships with our customers across the nation.

Our Vision

To illuminate India's electrical infrastructure by being the leading provider of innovative and sustainable PVC electrical solutions. We envision a future where Proton Energy is synonymous with trust, quality, and accessibility in every electrical installation, contributing to a well-connected and safely powered nation.
