About Inncon Industries

Since its establishment in 1998, Inncon Industries has built a solid reputation as a producer, dealer, and supplier of heating devices. Our clients like our wide choice of products because they are long-lasting, economical, dependable, and environmentally friendly. Powder Coating Plant, Dead Weight Tester, Digital Pyrometer, Waterproof Temperature Sensor Probe, Float Type Tank Level Indicator, Pressure Test Pump, and many more items are among our product offerings.

Superior raw materials that adhere to global quality standards are used to create the items. In addition, our product line is well-liked by our customers because of its flawless design, technical support, and utilisation of the most recent approaches.

Our Team:

An effective and diligent team of specialists is crucial for a firm to operate efficiently. We have been able to meet the unique demands of our clients because of our highly effective team of professionals.

Additionally, we are knowledgeable about the most recent technologies and processes, allowing us to create high-end industrial products. Additionally, thanks to the efforts of our staff, we have been able to preserve positive relationships with our clients.

Why Us?

Catering to customer demands and expectations is crucial in sectors that are expanding quickly. Numerous sectors and professions make substantial use of our line of industrial products. We typically provide items of exceptional quality following global quality standards. Additionally, we have always concentrated on providing for the demands and requirements of our clients in the greatest way feasible.
