

We Ratnakar Enterprises are a leading and distinguished Manufacturer, Exporter, Supplier and Retailer of quality Balancing Machine, Coiling Machine, Dynamic Balancing Machine, Hardness Tester and Industrial Machinery.

Erichsen Cupping Testing Machine (RET-20)

Rockwell Hardness Testing Machine

Pendulum Impact Testing Machine

Computerized Vickers Hardness Tester

Belt Drive Hard Bearing Balancing Machine

Analog Cum Computerized Universal Testing Machine

About Ratnakar Enterprises

Our comprehensive range of testing machines and equipment including hardness testers, brinell hardness testers, vickers hardness testers is based on latest technology to ensure accuracy in testing. Our wide assortment encompasses universal testing machines, brinell hardness testers, hardness testing machines, torsion & fatigue testing machines, balancing machines, compression & erichsen testing machines, tensile testing machines, vickers hardness testers and impact testing machines. Under the category of universal testing machines we provide electronic universal testing machine model kut 40(e), electronic extensometer model ree-2, electronic universal testing machine model kut 40 and electronic panel model kute - 2k. Similarly we offer manual brinell system hardness tester, hydraulic brinell system hardness tester, optical brinell system hardness tester which come under our category of brinell hardness testers. Our wide gamut of hardness testing machines include rockwell system hardness tester, rockwell cum brinell hardness tester. We offer different range of balancing machines such as hard bearing dynamic balancing machine, belt drive hard bearing balancing machine and hard bearing vertical balancing machine. Backed by our sophisticated production facility we offer tensile testing machines like tensile testing machine model-1.3 dr, tensile testing machine model-1.5 gr and mechanical extensometer model-rem1. Along with these there are also several other products. Some of the salient features of our wide array of testing machines comprises of the following: accurate testing & measurement durable rugged construction compatible with industrial standard

Factsheet

Basic Information

Nature of Business : Manufacturer / Exporter / Supplier / Retailer

Contact Person : Mr. Amit Appasaheb Kudche

Registered Address : 8/579/11-A, Kolhapur, Maharashtra

Total Number of Employees : 20 - 50

Year of Establishment : 1998

Legal Status of Firm : Professional Association

Tensile Testing Machine

Tensile Strength Testing Machine

Servo Controlled Universal Testing Machine

Orthopedic Implant Tensile Testing Machine

Mechanical Universal Testing Machine

Industrial Tensile Testing Machine

Hydraulic Tensile Tester

Hardness Tester

Vickers Hardness Tester

RVM-50 PC
Computerized Vickers
Hardness Machines

Rockwell Hardness
Tester

Rockwell Cum Brinell
Hardness Tester

RB 3000- O Optical
Brinell Hardness Tester

Portable Rockwell
Hardness Tester

Industrial Machinery

Rockwell Hardness
Testing Machine
