

Riddhisiddhi Enterprises

We Riddhisiddhi Enterprises are a leading and distinguished Manufacturer, Exporter, Supplier and Trader of quality Agarbatti Making Machine, Cup Making Machine, Disposable Plate Making Machine, Lamination Machine and Machines and Equipments.

Automatic Paper Cup Making Machine

Automatic Paper Plate Making Machine

Automatic Dhoop Batti Making Machine

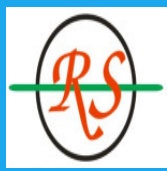

Automatic Incense Stick Making Machine

Automatic Candle Making Machine

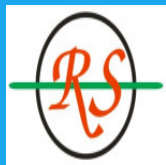

Automatic Non Woven Bag Making Machine

About Riddhisiddhi Enterprises

manufacturing disposable paper cups and plates using specialized machinery. The business requires investment in machinery, raw materials, and potentially a manufacturing facility. It leverages the growing demand for disposable food service items, particularly in the food and beverage industry, and among consumers who value convenience and sustainability. Here's a more detailed breakdown:

- Business Overview:**
 - Product:** The business produces paper cups and plates, which are widely used for serving food and beverages in various settings like restaurants, events, and homes.
 - Market:** The market for paper cups and plates is substantial and projected to grow, driven by factors like convenience, hygiene, and increasing environmental awareness.
 - Sustainability:** The use of paper products aligns with the growing demand for eco-friendly packaging, especially compared to plastic alternatives.
- Machinery:**
 - Paper Cup Machines:** These machines automate the process of forming paper cups from paper blanks, sealing them, and potentially printing designs.
 - Paper Plate Machines:** These machines cut and mold paper into the desired plate shapes and sizes.
 - Key Considerations:** When selecting machinery, factors like automation level (manual, semi-automatic, fully automatic), speed, capacity, and reliability are crucial.
- Supplier:** Choosing a reputable supplier with good after-sales service is important.
- Manufacturing Process:**
 - Raw Materials:** The primary raw material is PE-coated paperboard, which is typically supplied in rolls.
 - Printing:** Machines can print designs or branding onto the paper before or after forming.
 - Forming:** Machines shape the paper into cups and plates, using heat and pressure to seal the edges.
 - Finishing:** This may involve processes like curling the rim of the cup or adding a coating to enhance durability.
- Business Aspects:**
 - Investment:** Starting a paper cup and plate manufacturing business requires significant initial investment in machinery, raw materials, and potentially a facility.
 - Market Research:** Thorough market research is essential to understand local demand, competition, and pricing strategies.
 - Legal Compliance:** Ensuring compliance with relevant regulations and obtaining necessary permits and licenses is crucial.
 - Financial Planning:** Developing a comprehensive business plan that includes financial projections, cost analysis, and funding options is important.
 - Sales and Distribution:** Establishing a strong sales and distribution network to reach target customers is essential for success.
 - Quality Control:** Implementing rigorous quality control measures to ensure consistent product quality is vital.

Factsheet

Basic Information

Nature of Business : Manufacturer / Exporter / Supplier / Trader

Contact Person : Mr. Sandeep Tripathi

Registered Address : 25, Takharaou Habeli, Near Panchayat Ghar, Takharaou, Mainpuri, Uttar Pradesh

Total Number of Employees : 6 - 20

Year of Establishment : 2020

Legal Status of Firm : Individual (Sole proprietorship)

Disposable Plate Making Machine

Automatic Single Die
Paper Plate Making
Machine

Automatic Paper Plate
Making Machine

Automatic Double Die
Paper Dona & Plate
