About S. N. Engineers

For over 15 years, S.N. Engineers has been leading the way with innovative valve automation solutions. Our products are used in all types of environments all over the country and are still the chosen products over others because of the safety features, product performance and reliability that they bring.

We provide industries with solutions focused on delivering a full array of reliable valves like the butterfly, ball, globe, gate & check valves along with pneumatic actuators & cylinders, hammer unions and forged rings. All our products and services are on-time and to the exact measure regardless of the scope of your project, size or complexity. All our products speak of quality at every step of the manufacturing process.

We have the best in-house facilities at Ahmedabad in Gujarat. Our unit is strapped with the best and technologically advanced machinery that is operated by the best technicians and engineers in the house. Right from the selection of the raw inputs to the delivery, every step is guided by our founder, Mr. Nadeem Shaikh. Every procedure in the factory is personally overseen by him to ensure that quality is at its peak.

We are a very customer-oriented company that gives prime importance to the feedback that they give us on our products. This has enabled us to further upgrade our quality and become one of the leading suppliers that are chosen by every customer.
