About Shanthi engineering works

Shanthi Engineering Works was established in the year 1982 in Karnataka, India. We are a manufacturer and supplier of Sugarcane crushers, jaggery cooking pans, industrial dryers and a lot more. This range is precisely manufactured using the best quality raw materials and contemporary technology under the guidance of skilled professionals in compliance with the set quality standards.

Also, our products are acknowledged for their features like robust construction, longer life, rust-proof nature, optimum quality, reliability, and durability. As per the requirements of the customers, these offered sugarcane Crusher machines can be customized.

Infrastructure Facilities

We have a well-equipped infrastructure that is divided into various departments which perform their given work efficiently. Also, our infrastructure is equipped with the latest machines and tools that are necessary for manufacturing high-quality machines.

These machines are regularly tested by the quality controllers to ensure their proper working and long service life. Apart from this, our infrastructure unit is divided into various units like manufacturing, quality control, testing, warehousing, and transportation.

Customer Satisfaction

To manufacture the offered range, the best quality materials are used. After production, the offered range of sugarcane Crusher machines undergoes various quality assurance procedures. For this, we have established an in-house quality testing unit. This unit is well-equipped and known for carrying out standardized quality testing procedures.

Being a quality-conscious and renowned name in this domain, we assure you that the best quality of the offered range of sugarcane Crusher machines is maintained on our end. Apart from this, we also offer various payment modes to our esteemed clients to help them conduct hassle-free transactions with us.
