## About SKS ELECTRONICS

SKS electronics is one of the most celebrated names in the market of Bengaluru (Karnataka, India). We are in the business of manufacturing, importing, and supplying the best quality electrical resistors, electrical capacitors, electrical diodes, electrical transistor, electronic relays, electronic integrated circuits, etc. We offer different types of electrical resistors such as wire wound resistors, fusible resistors, metal oxide resistors, carbon film resistors, etc. The electrical resistors provided by us are made using the best quality components, tools, and technology. These electrical resistors are best known for their high-quality and long service life. We provide different electrical capacitors like electrolytic capacitors, tantalum capacitors, multilayer capacitors, and many more. Our electrical capacitors are appreciated for their top quality and long life. We also make available many electrical diodes such as general diodes, standard recovery diodes, power diodes, thyristor diodes, etc. Our electrical diodes are largely appreciated for their effective performance. All our products are available in a wide variety of sizes and specifications. Dial our numbers to connect with us and purchase our products at affordable prices.

### Why Choose Us?

Working in the industry since 2018, the company has been able to gain a decent clientele in Bengaluru and other cities of Karnataka as well. We are also known for our timely delivery services as well.
