## About Stanrose Envirotech India Private Limited

We at Stanrose Envirotech India Private Limited have been producing and supplying this excellent and varied line of cleaning solutions since 2006. Additionally, we offer several services, including flooring, floor coating, waterproofing, epoxy painting, etc.

This range's production adheres to the standards and regulations established by the sector while utilising the best raw materials and contemporary equipment.

This guarantees the product's performance, service life, capacity, strength, and accuracy. Additionally, this variety is marked at a rate that leads the market to satisfy customers.

The facility has been divided into multiple highly functional units to manage the firm's operations most easily and effectively feasible. These teams work cohesively and expertly to increase productivity for us.

### **Quality Assurance:**

Quality is a very important concept to us. Thus, we use top-notch raw materials and cutting-edge equipment following the standards and criteria established by the industry. This ensures the product's functionality, strength, endurance, and effectiveness.

### **Our Team:**

Our staff of extremely committed and diligent professionals is chosen for their abilities, experiences, and readiness to work hard. These professionals assist us in achieving several of the firm's set goals and objectives in the most effective way possible.

### **Why Us?**

To uphold this reputation, we use top-notch raw materials and cutting-edge equipment following the standards and criteria established by the sector. This guarantees the product's functionality, service life,

sturdiness, durability, and corrosion resistance.
