About U K German Pharmaceuticals

UK German Pharmaceuticals is a Sangrur (Punjab) based manufacturing company that brings forward a wide range of products in the healthcare industry. We are known as a successful manufacturer and supplier of UK herbal tea, UK herbal stevia tea, Dr. BSK Abbatis, animal feed supplement, herbal capsules, and herbal syrup. All our products are made using the finest ingredients, which we procure from trusted sources after conducting strict quality control tests. We have employed quality management systems to serve high-quality products to the consumers. We have a team of experienced quality auditors that strictly checks the entire range of products on diverse quality parameters. We make our products available in different specifications to meet the diverse requirements of the customers.

UK German Pharmaceuticals is a Sangrur (Punjab) based company, which specializes in the production and trade of several products in the healthcare industry. Dr. Bhim Sain Kansal and Dr. Upkar Kansal are the Co-Founders of the company. Working under their able guidance, we have been catering to emerging demands of the buyers since 2001.

Quality Assurance

Quality is the prime concern of the organization. We make sure that the entire process is conducted in compliance with the set industrial quality standards. In addition, our stands are thoroughly checked against diverse quality parameters before making the final dispatch.

Our Warehouse

We have maintained a spacious warehouse at Sangrur (Punjab), which is just a few kilometers away from our headquarters. It is the place where we store products in different sections and provide them with the basic amenities to add to their shelf life.
