About VMA Engineering Pvt . Ltd

VMA Engineering, operating since 2019 and counting, is a credible entity serving the mineral sphere of India. We are headquartered in Ambala (Haryana) and manufacture & supply different products. At us, clients get an assortment of injection moulds, home appliance mould, plastic components, laboratory equipment, and plastic components. Every product manufactured and supplied from our end surpasses the international parameters. Hence, we've emanated as a prominent choice for our clients worldwide. Place your bulk orders by dialing the hotline numbers today.

The company is led by an experienced management. We are staffed by professionals who are old-hands at work. They leave no stone unturned in rendering the optimal resolution to clients that turn to us. For any queries, get in touch with us today.

Easy Delivery Policy

We have a simple delivery policy. As soon as your orders are received, the unblemished minerals are packed and dispatched from our end. Considering the location, we select the apt shipping option for the client. All orders can be traced accordingly. Furthermore, we keep you updated with the shipment until delivery.

Reliable R&D Bureau

We have a dedicated R&D bureau. It has been commissioned for verifying the background of vendors with whom we have professional tie-ups. Without performing the background check in the domain, we do not buy the raw material for further production of the industrial minerals offered.

Choose Us

You should choose us because our product moulds are widely opted by clients across India and overseas. Only after a stringent quality check, all products are finalized for future sales. Thus, we are a name on which you can rely.
