## About Waterino

Our founders are well qualified engineers who have track record to serve pump industries for so many years. We would like to share that one of our founder is “production director” of a well established & reputed pump manufacturing firm since last 32 years located in ahmedabad. We develop submersible/dewatering/sewage submersible pump set ranging from 0.37kw to 350kw which is far beyond the reach of other local manufacturer. Now I need not to explain here that we have well experienced & qualified after sales service team to reach your doorstep. Further we can even develop components of pumps & systems so easily, which needs a lot of ground work for our other competitors. on the other hand one of our founder have a deep knowledge & on site experience particularly in pressure boosting system, imported pumps, hydro pneumatic pressure tanks & accessories which makes easy for us to find a right source of supply and market.
